GUIDED MISSILE INTELLIGENCE COMMITTEE

2 March 1959

MEMORANDUM FOR: Chairman, United States Intelligence Board

**SUBJECT : Site Designation System for Soviet Surface-to-Air
Missile Sites**

1. In order to provide the intelligence community with a very simple system for designating Soviet surface-to-air missile sites around Moscow and any other locale, the Guided Missile and Astronautics Intelligence Committee (GMAIC) 

25X1A

 have agreed to a system which is depicted in the attached chart (TAB A).

25X1A

2. GMAIC will monitor the implementation of this system for the US.

3. The Board is asked to note the system and the members to advise appropriate activities within their departments.

4. It is expected that there will be no opposition to this paper.
